JOINING TOGETHER TO MAKE KNOWLEDGE ECHO FURTHER

PARTNERSHIP CONCEPT CLARITY FORM

The ECHO model is built on insight and collaboration.
The following form will help the ECHO Colorado team understand
your goals and existing resources, so please be as detailed
as possible. This will help us determine how we can work
with you to build a successful ECHO partnership.

ECHO TO LEARN, SHARE, ENGAGE AND CONNECT.

POPULATION IMPACT

☐ **DESCRIBE THE NEED**

What is the problem you are hoping to address?   (1,200 character limit).

☐ **DEFINE THE VALUE**

How would addressing this problem impact the quadruple aim?
Improved Physician Experience | Improved Patient Outcomes |
Lower Cost of Care | Improved Patient Experience   (1,200 character limit).

☐ **SUPPORTING DATA**

Provide 3–5 statistics with sources cited that support the problem definition.   (1,200 character limit).

POPULATION IMPACT

☐ **GEOGRAPHIC FOCUS**

Clarify if your priority population is state, regional or national.   (1,200 character limit).

_____

☐ **AUDIENCE**

Who can address the problem defined above?
Who is going to need to change their behavior to address the problem?   (1,200 character limit).

_____

STRATEGIC ALIGNMENT

☐ **ECHO ACT FOCUS**

Select all the following areas of focus this project may address.

☐ Mental health and substance use disorders including prescription drug and opioid abuse

☐ Chronic care/disease management for patients of all ages

☐ Complex care including pediatrics

☐ Primary care workforce recruitment, retention and support of lifelong learning

☐ Specialty care shortages

☐ Public health programs: disease prevention, outbreaks and surveillance

☐ Implementation of disease prevention guidelines

☐ Health care in rural, frontier and health profession shortage areas, medically underserved populations and medically underserved areas

☐ Advanced care planning and palliative care

☐ Trauma informed care

☐ Pregnancy care and maternal health

☐ **ACCESS TO EXPERTS**

To what extent does the priority audience have access to expert knowledge?
Describe other programs or initiatives.   (1,200 character limit).

STRATEGIC ALIGNMENT

☐ **PROFESSIONAL ISOLATION**

Describe the value of technology in connecting the priority audience?

What are the current barriers for this audience in connecting with each other?   (1,200 character limit).

☐ **TRAINING AVAILABILITY**

What current training exists for addressing the defined problem?

Are there national guidelines (if applicable) available to reference?   (1,200 character limit).

☐ **RESEARCH & EVALUATION**

What are examples of performance indicators that may be used in research or evaluation of a project?

Where does current data exist that may be used in research or evaluation efforts?   (1,200 character limit).

ASSESS ECHO FIT

☐ **INFORMATION DELIVERY**

What type of information are you hoping to deliver?

How much new information delivery is required for the problem to be addressed?   (1,200 character limit).

☐ **EXPERT INPUT**

Of the knowledge that needs to be disseminated,

how much would need to come through expert presentations?   (1,200 character limit).

☐ **PEER LEARNING**

Why is peer sharing important in addressing the defined problem?   (1,200 character limit).

ASSESS ECHO FIT

☐ **APPLIED KNOWLEDGE**

How would information be applied to daily practice?
Include time frame: Is information immediately applicable?　　　　　　　(1,200 character limit).

☐ **TIME FRAME**

What are current time expectations on the development and implementation of this project?

What expectations are defined by funding requirements?　　　　　(1,200 character limit).

TO ECHO IS TO LEARN, TO SHARE, TO ENGAGE AND TO CONNECT.

CLARIFY CURRENT STATE

☐ **PREVIOUS TRAINING**

Is this concept a transition from a previous training?

If yes, describe the current mode of training and why the need to change.

Are there national guidelines (if applicable) available to reference?   (1,200 character limit).

☐ **NATIONAL GUIDELINES**

Are there national guidelines (if applicable) available to reference?

If yes, please describe how they may be utilized and a framework for this concept.   (1,200 character limit).

☐ **OTHER**

What other details are relevant to this concept?   (1,200 character limit).
